

Contract Information

Contracts

Southern Water

Contracts in this table are where an area of bioresources services is solely undertaken by a third party. It is not for contracts for goods or services supplied to companies when they undertake the service themselves. Contracts with associated companies and joint ventures where the company is one of those involved should be included.

Company commentary (optional)										
		Section A: Identifier		Section B: Bioresource service		Section C: Commercial information				
Column number		1	2	1	2	1	2	3	4
