FRS 17

The pension deficit shown at 30 September 2013 and 30 September 2012 are based on the valuations at 31 March 2013 and 31 March 2012 respectively updated by actuaries reflecting market yields and asset values. This is not a formal interim valuation of the scheme assets and liabilities, however an assessment of the actuarial losses has been made and shown in the STRGL. Actuarial gains and losses for the whole year and the surplus/deficit at the end of the year will be presented in the annual financial statements.

Prior year comparative

The interim accounts for the period to 30 September 2012 have been restated in these accounts to reflect the impact of the change in corporation tax rate from 24 per cent to 23 per cent, which was substantively enacted in the Finance Act 2012 on 3 July 2012, on the carrying value of the deferred tax liability.

Please note that these Interim Accounts have not been reviewed by the company's auditors
