

Kings Somborne Infiltration Plan

Appendix A – Status of Planned Actions August 2025

from
**Southern
Water** 

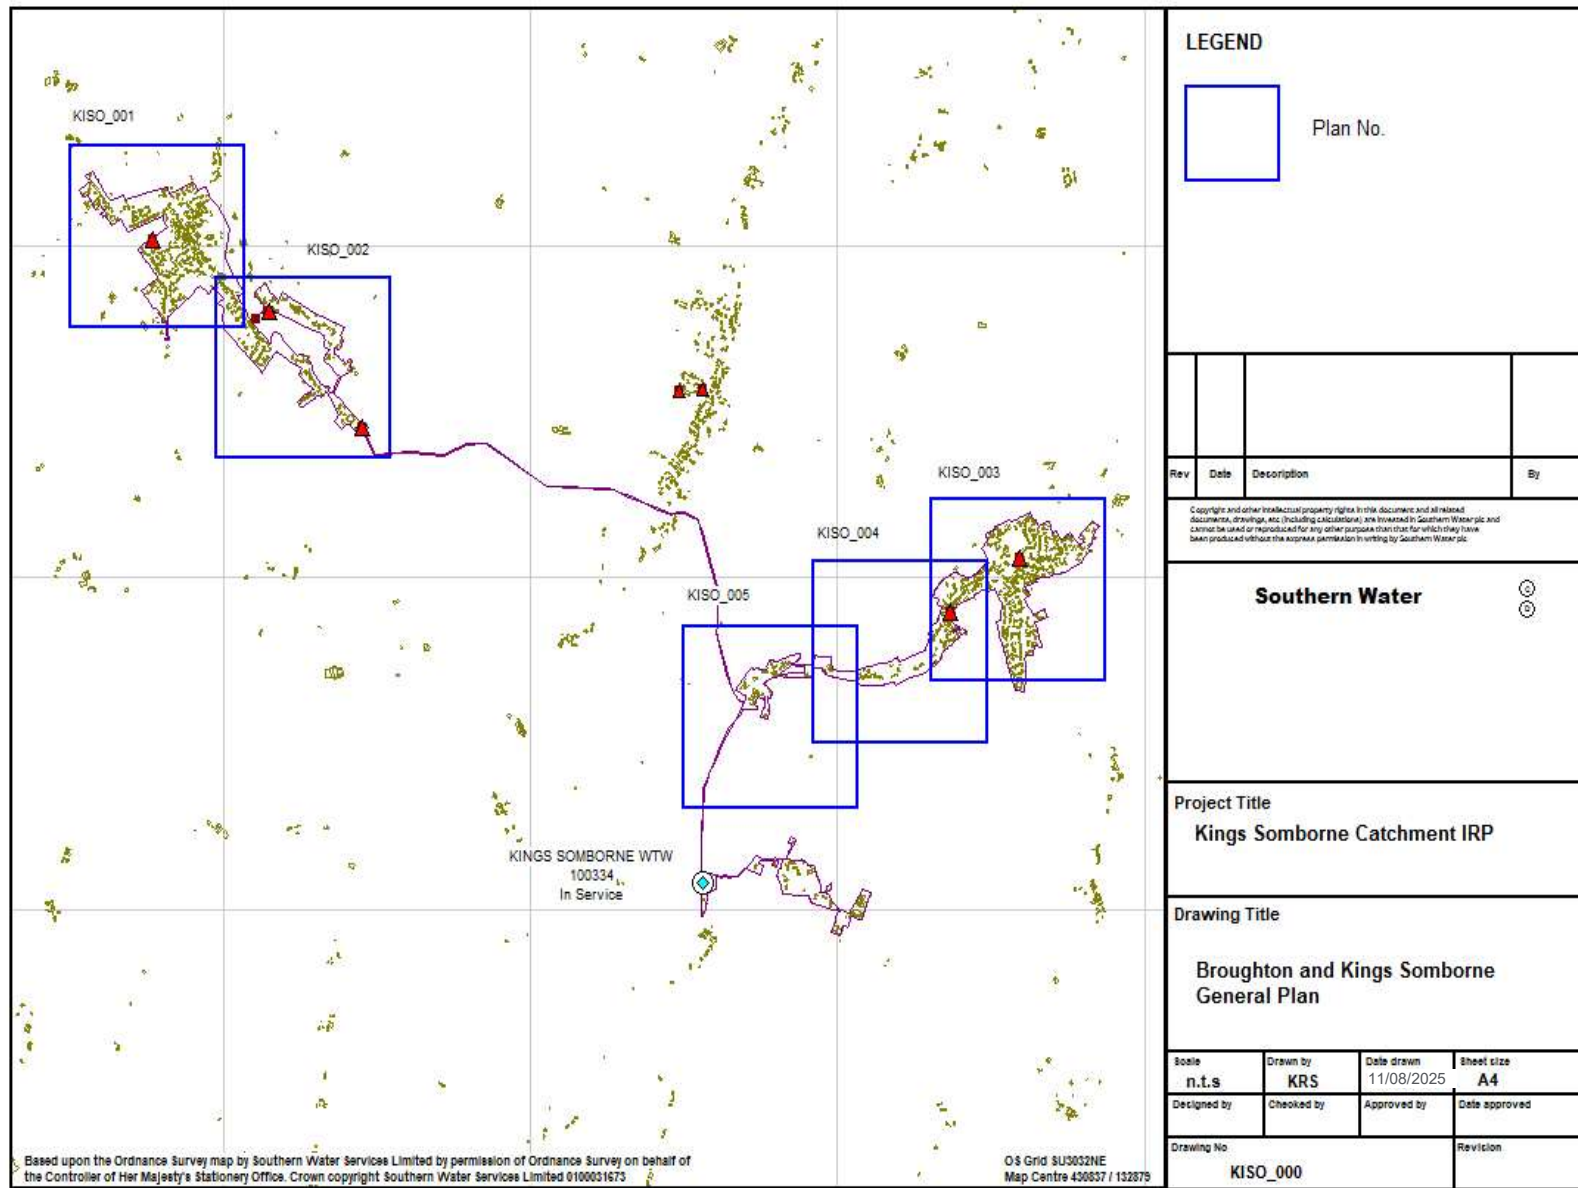

Summary of work completed

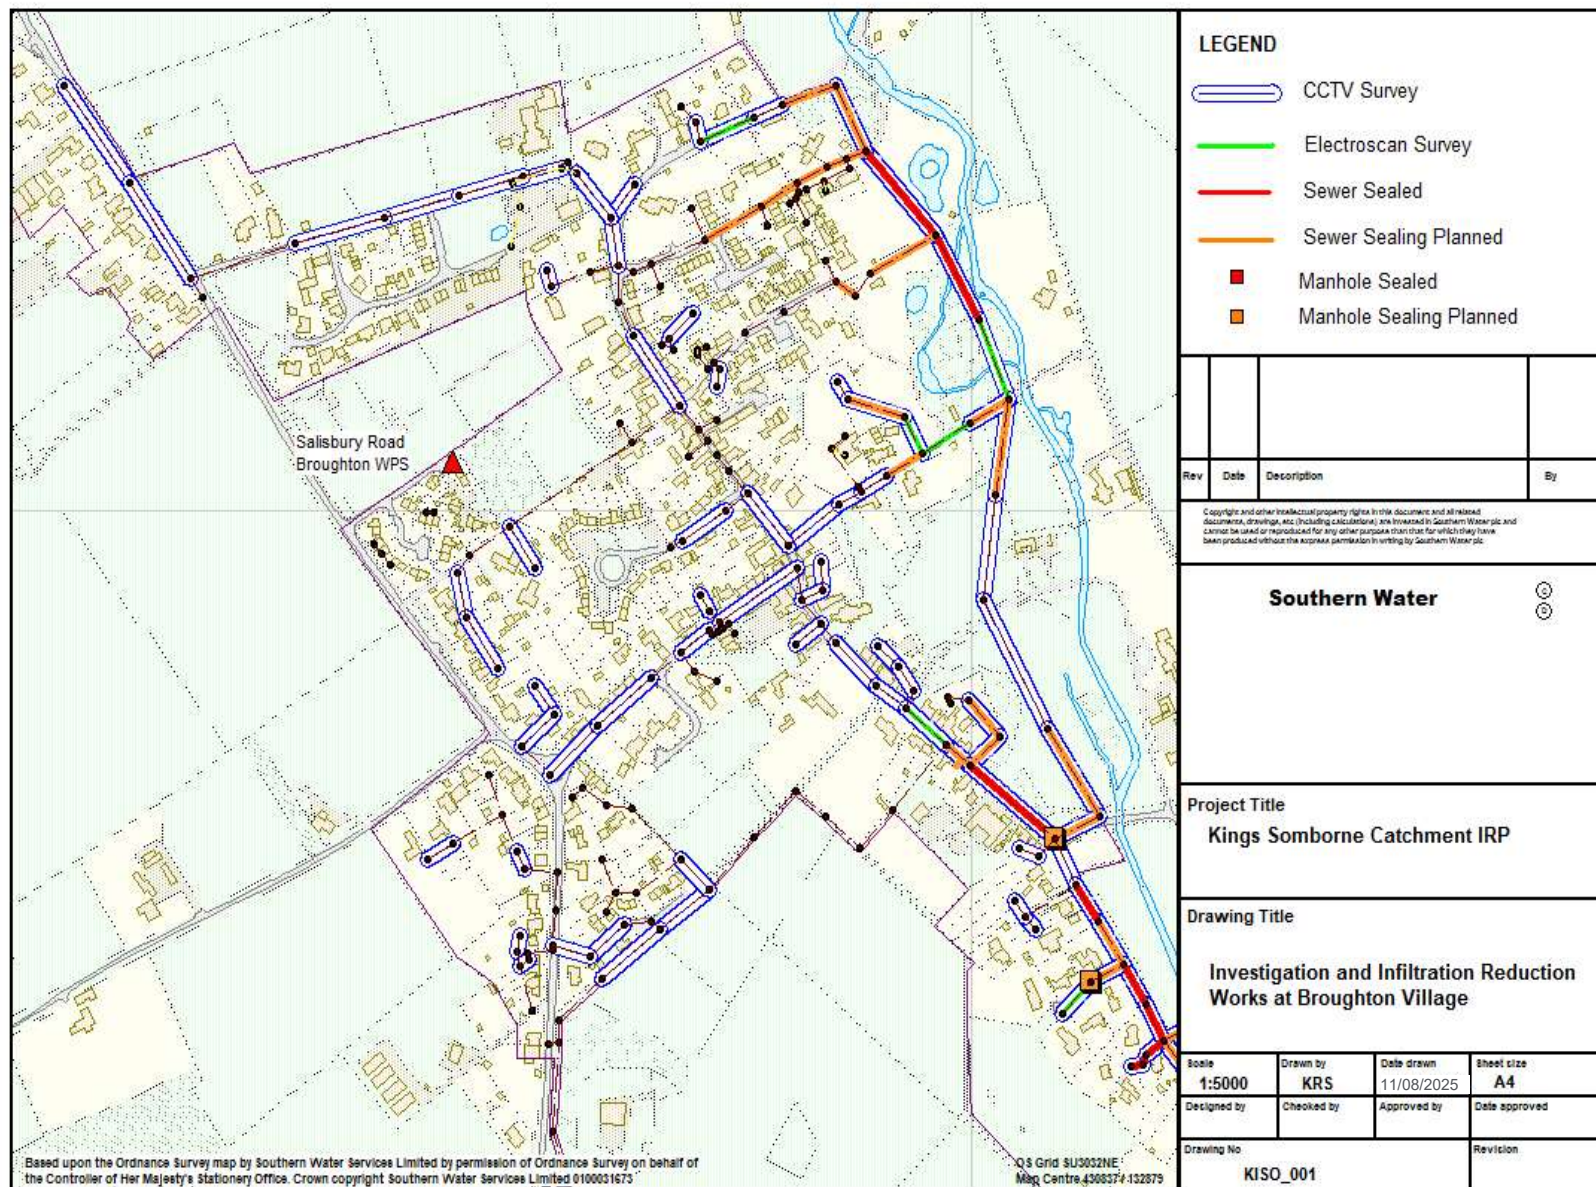

Work type	km
Length of sewer surveyed	13.13
Sewer Length Sealed	2.05
Sewers with no work required	9.56
Sewer sealing required	1.52
Manholes Sealed No.	5
Planned Manhole Sealing No.	2

Year	Surveyed (km)	Sewers sealed (km)	Manholes sealed
Pre 2014	5.53	0.15	0
2014	1.1	0	0
2015	1.1	1.2	4
2016	0.3	0.6	1
2017	0	0	0
2018	0	0	0
2019	0	0	0
2020	0	0	0
2021	0	0.1	0
2022	5.1	0	0
2023	0	0	0
2024	0	0	0
Post 2024	0	1.52	0

Note – Kings Somborne is not a village that suffers infiltration and sewerage issues annually. The priority for sewer sealing work is lower than other systems which do suffer more frequently. This is reflected in the reduction in planned work after 2018 following completion of the most significant sealing work.

Reference Plan

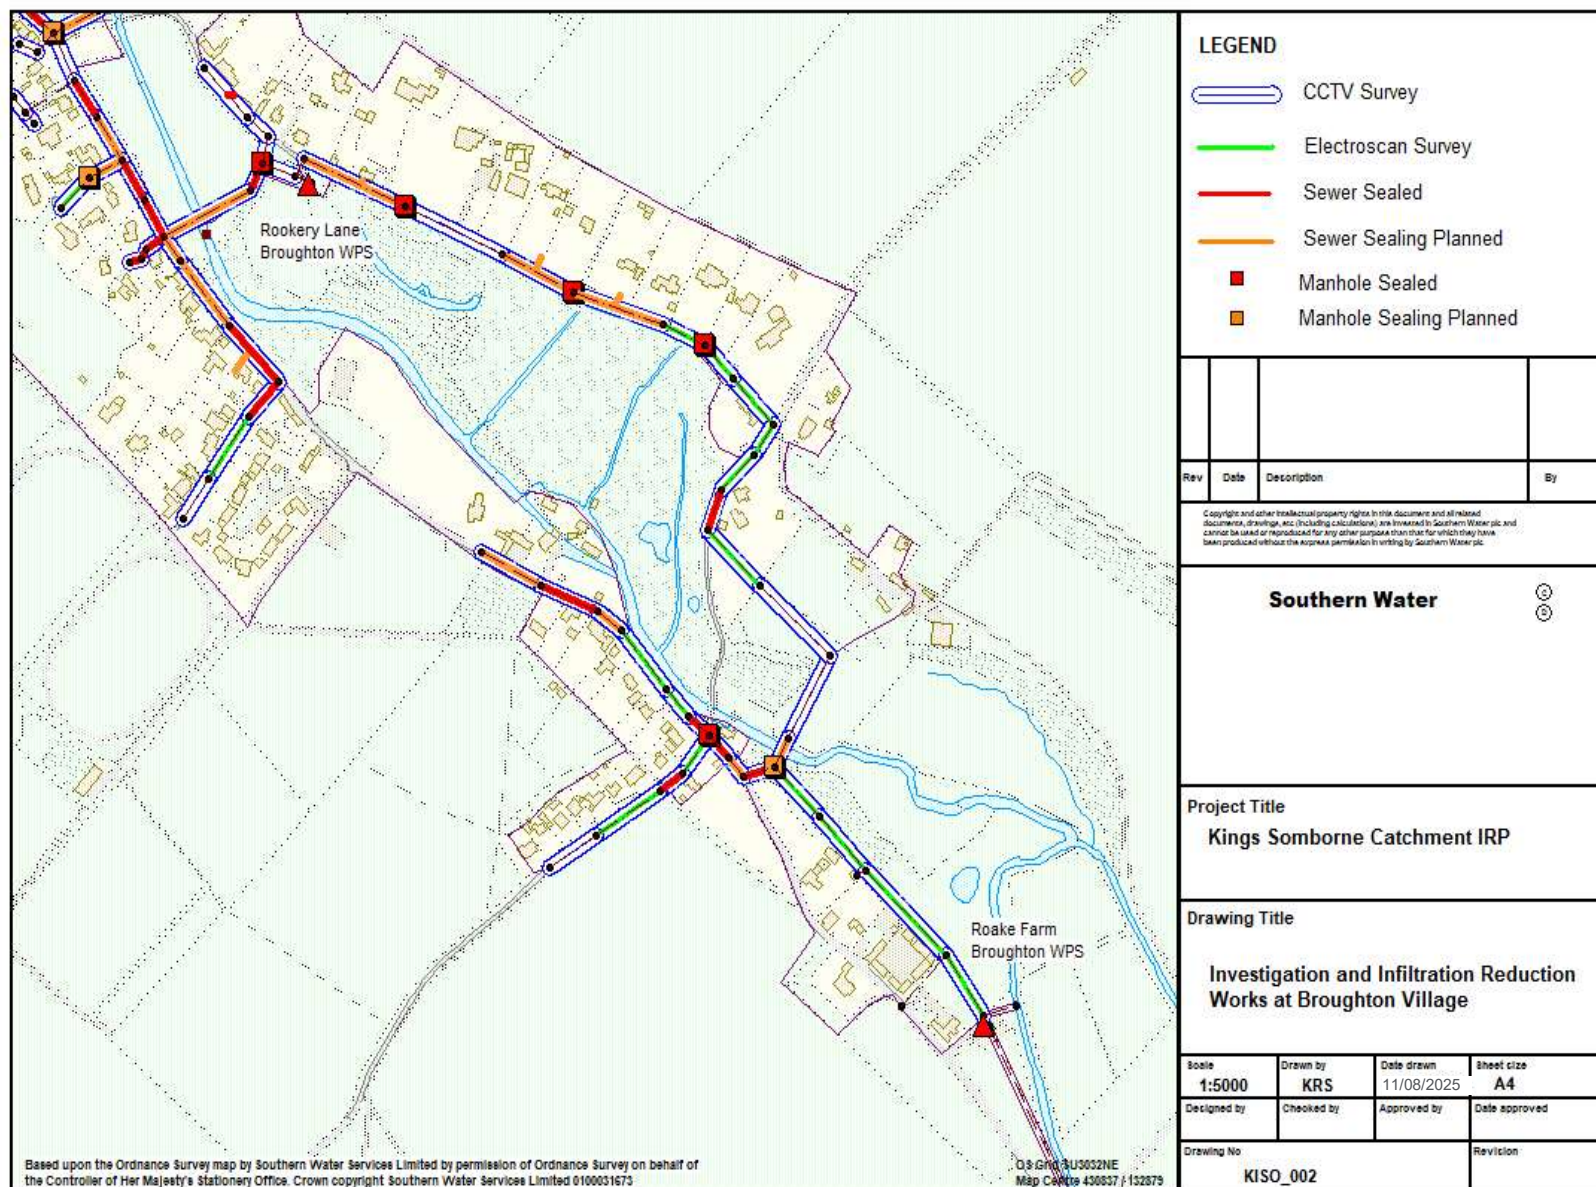

Detailed plan 5

Note – sewers shown as surveyed by cctv or electroscan with no corresponding sealing work have been determined to not require rehabilitation.

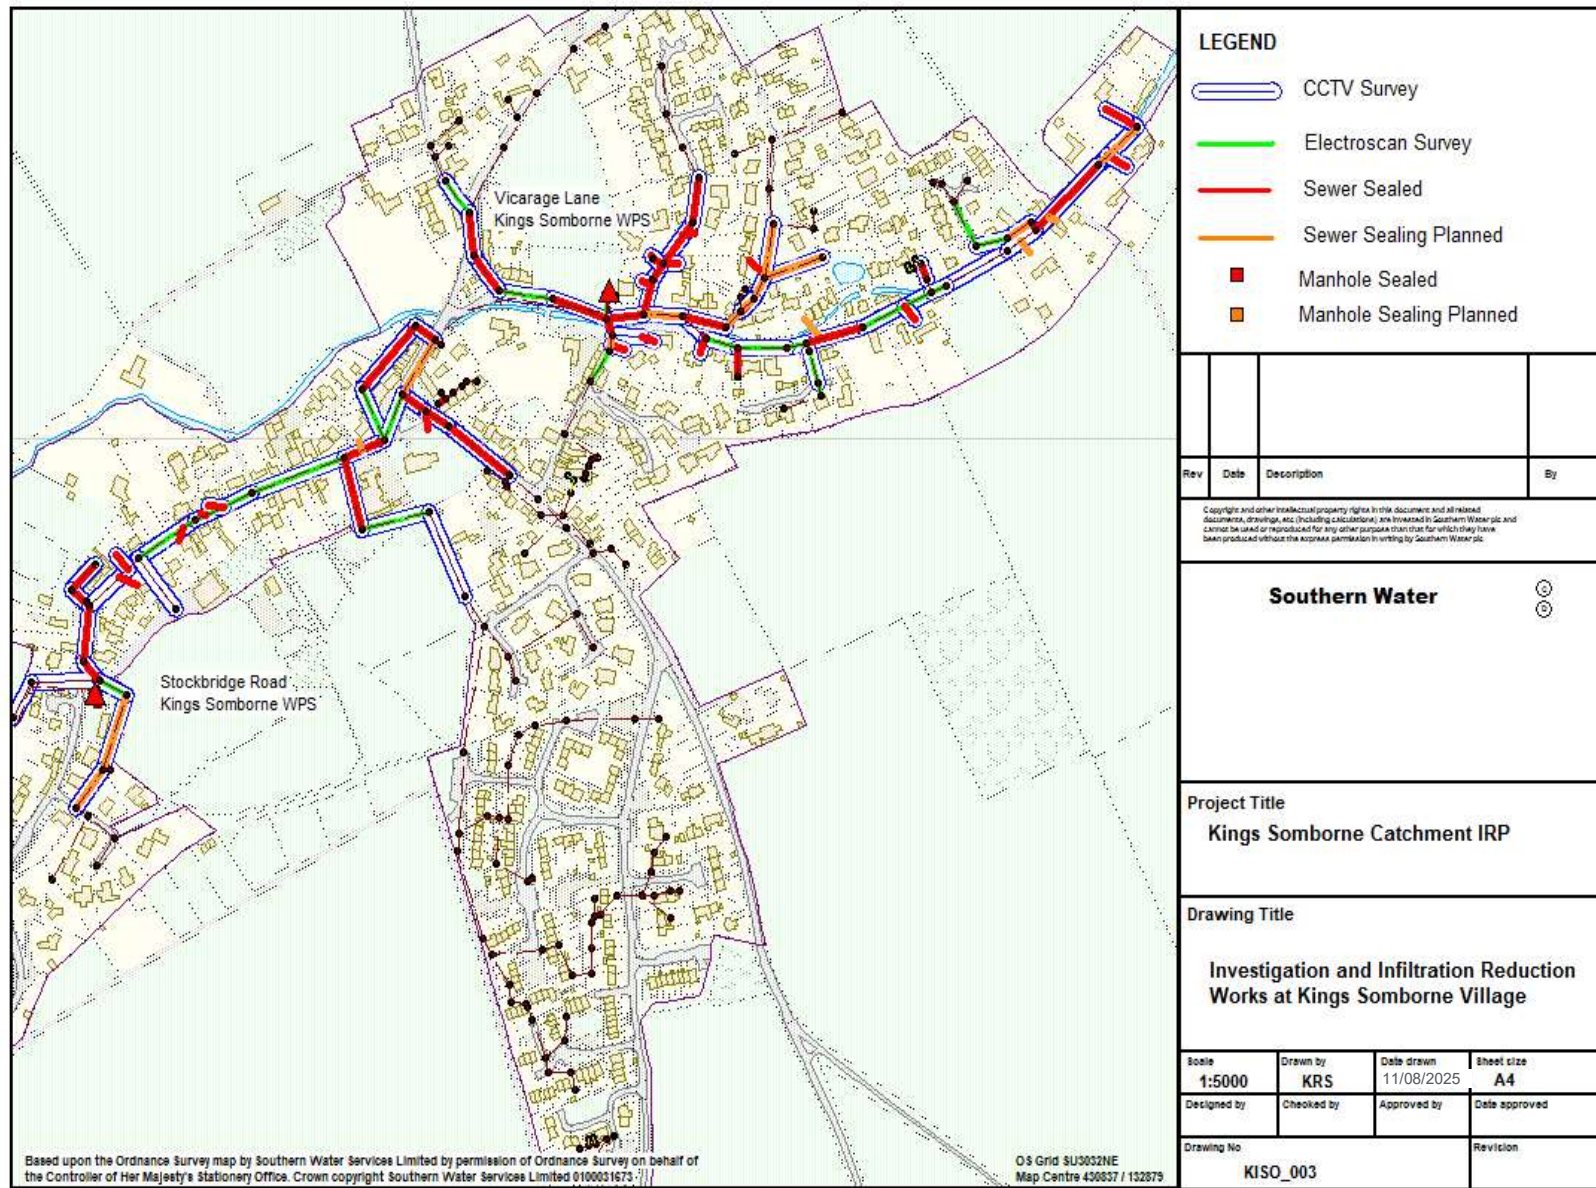

Detailed plan 6

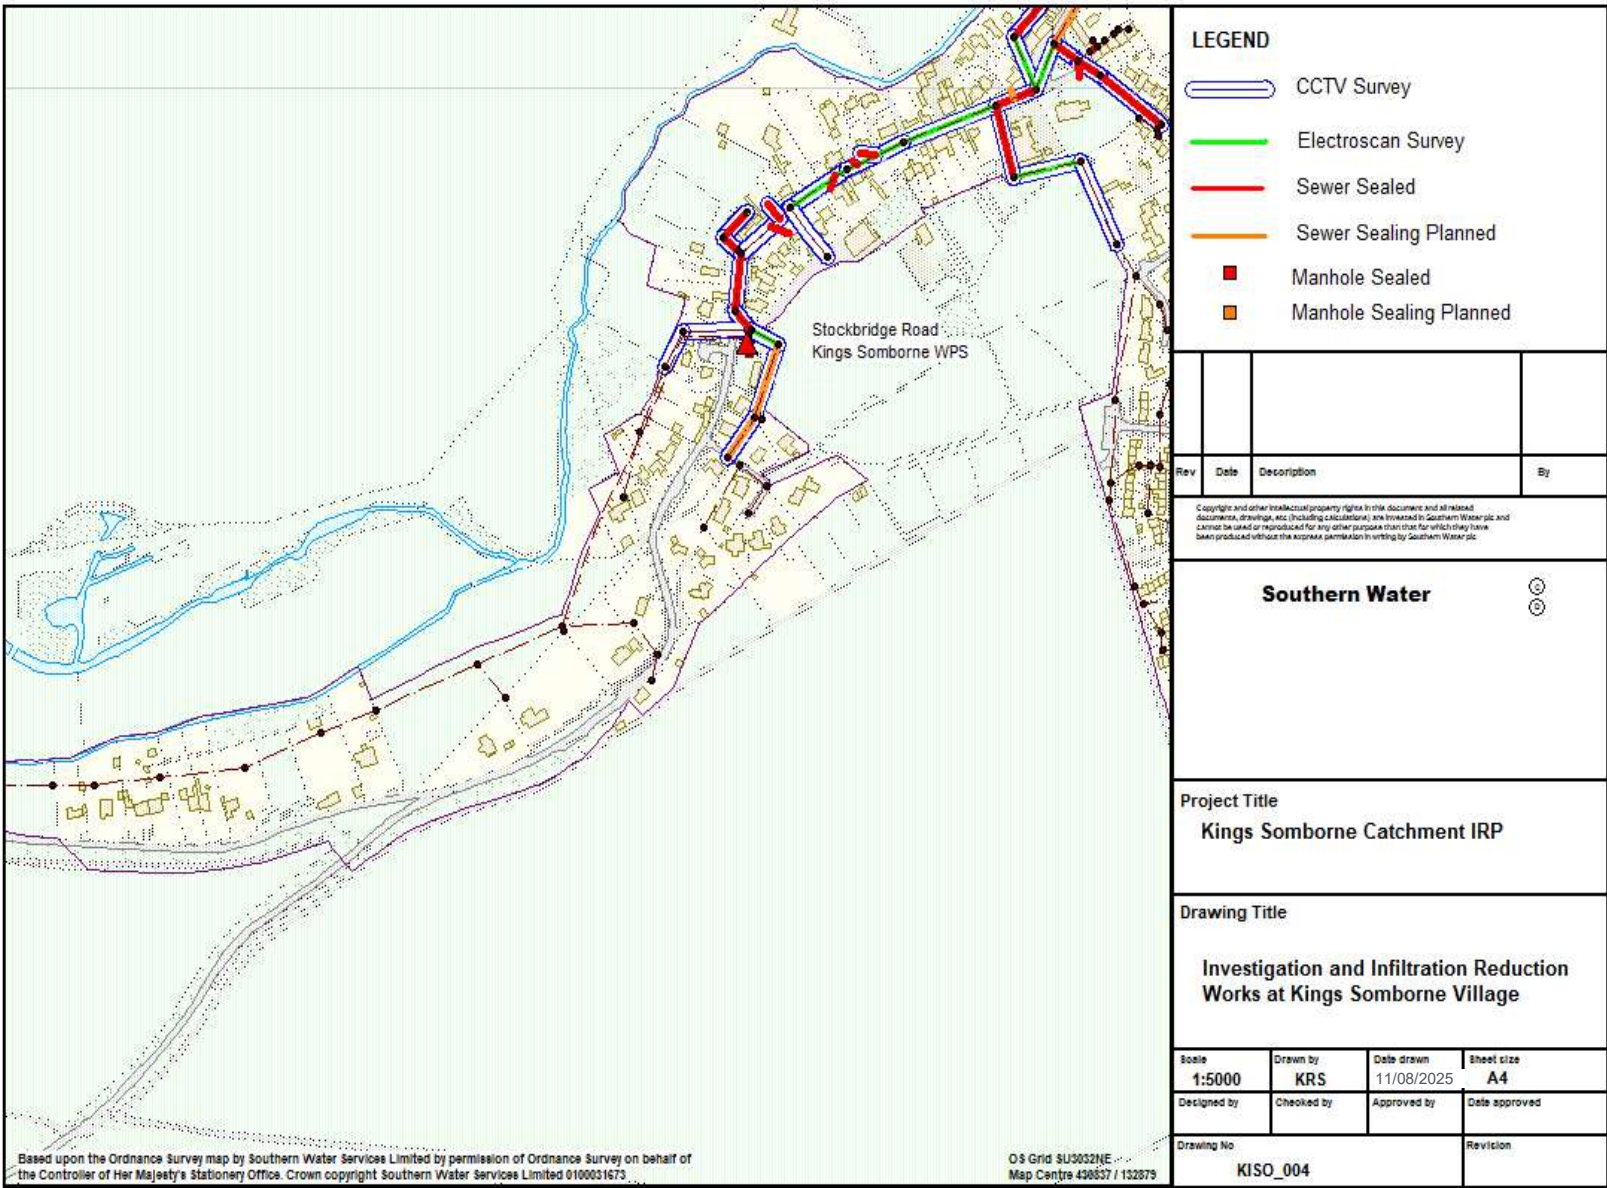

Note – sewers shown as surveyed by cctv or electroscan with no corresponding sealing work have been determined to not require rehabilitation.

Detailed plan 8

Note – sewers shown as surveyed by cctv or electroscan with no corresponding sealing work have been determined to not require rehabilitation.

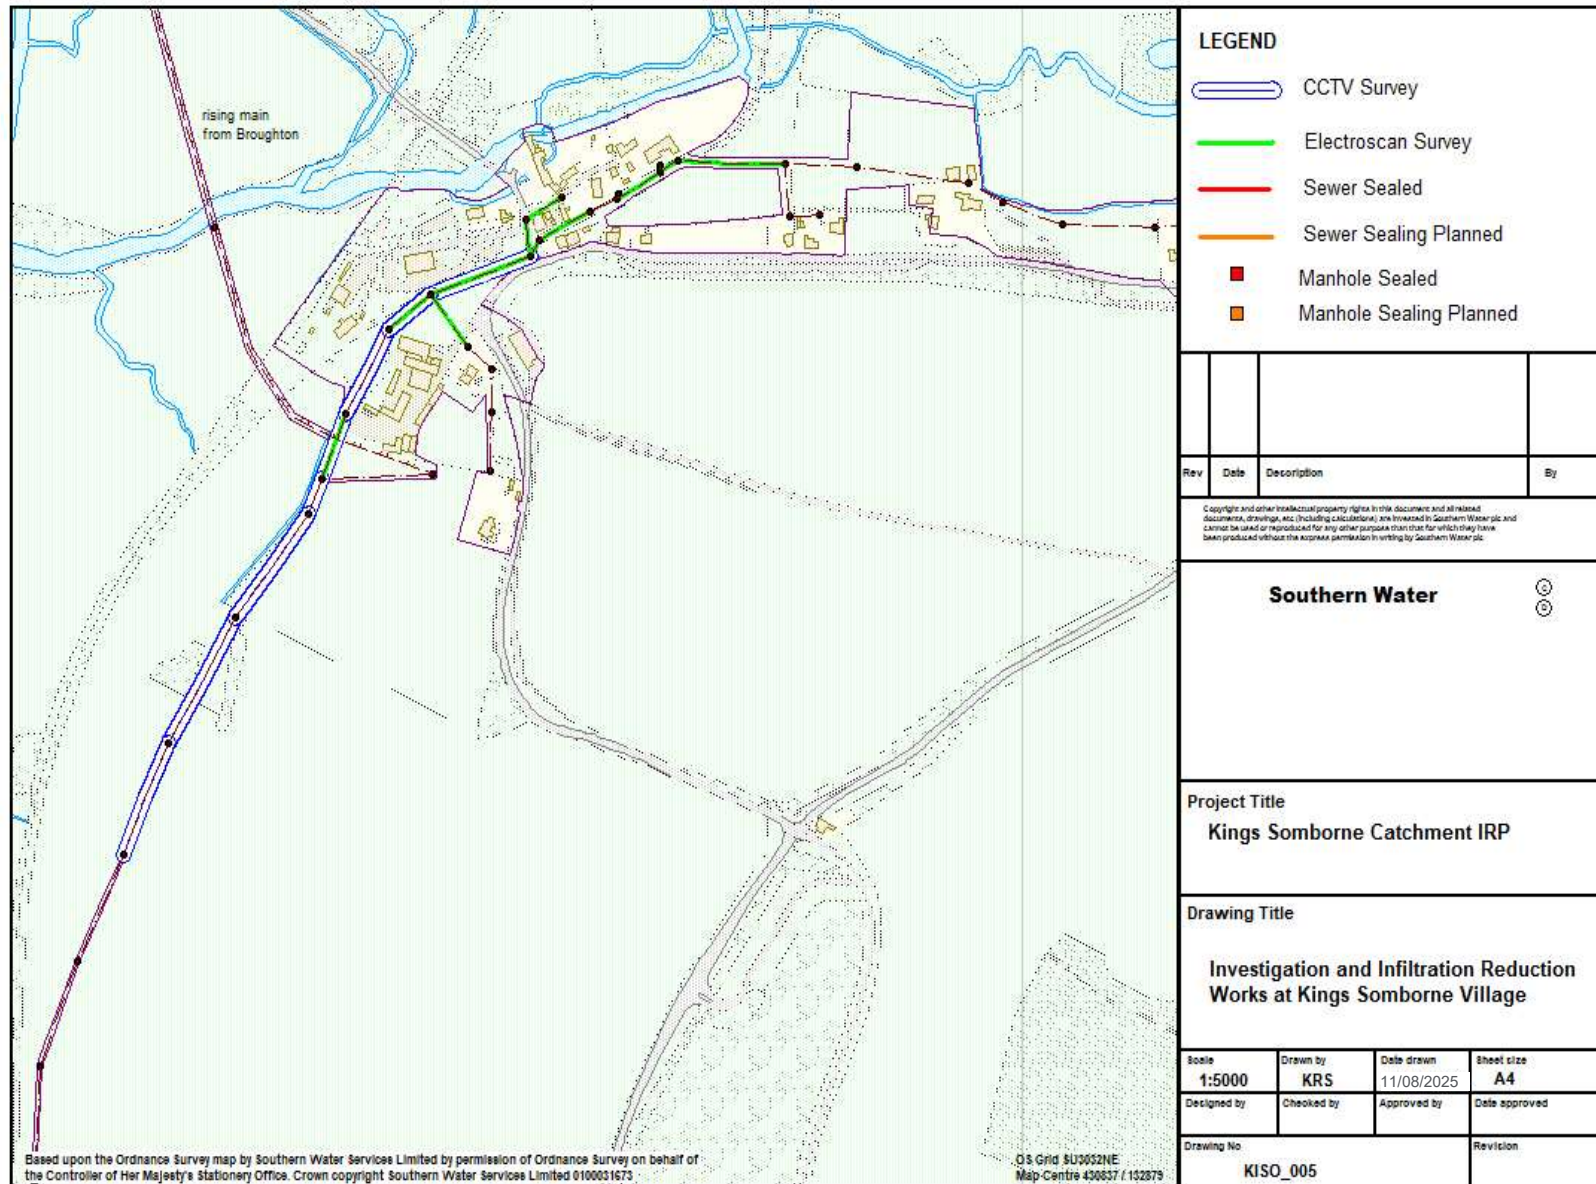

Detailed plan 9

Note – sewers shown as surveyed by cctv or electroscan with no corresponding sealing work have been determined to not require rehabilitation.

Detailed plan 9

Note – sewers shown as surveyed by cctv or electroscan with no corresponding sealing work have been determined to not require rehabilitation.
