

What if there was no water?

1. Read the six scenarios below and then choose one.

Scenarios

<p>a</p> <p>What if it did not rain enough in the winter to fill the reservoirs, rocks and rivers from which we get our water?</p>	<p>b</p> <p>What if you turned on your taps and the water came out dirty and smelly?</p>	<p>c</p> <p>What if you had to pay for the water before it came out of the tap, toilet or shower?</p>	<p>d</p> <p>What if you could only have one bucket of water each day?</p>	<p>e</p> <p>What if the sewers were full so there was nowhere for the toilets to flush waste to?</p>	<p>f</p> <p>What if you had to walk 10 miles to collect your water in a bucket before carrying it home?</p>
