

# Sidlesham Infiltration Plan

Appendix A – Status of Planned Actions August 2025

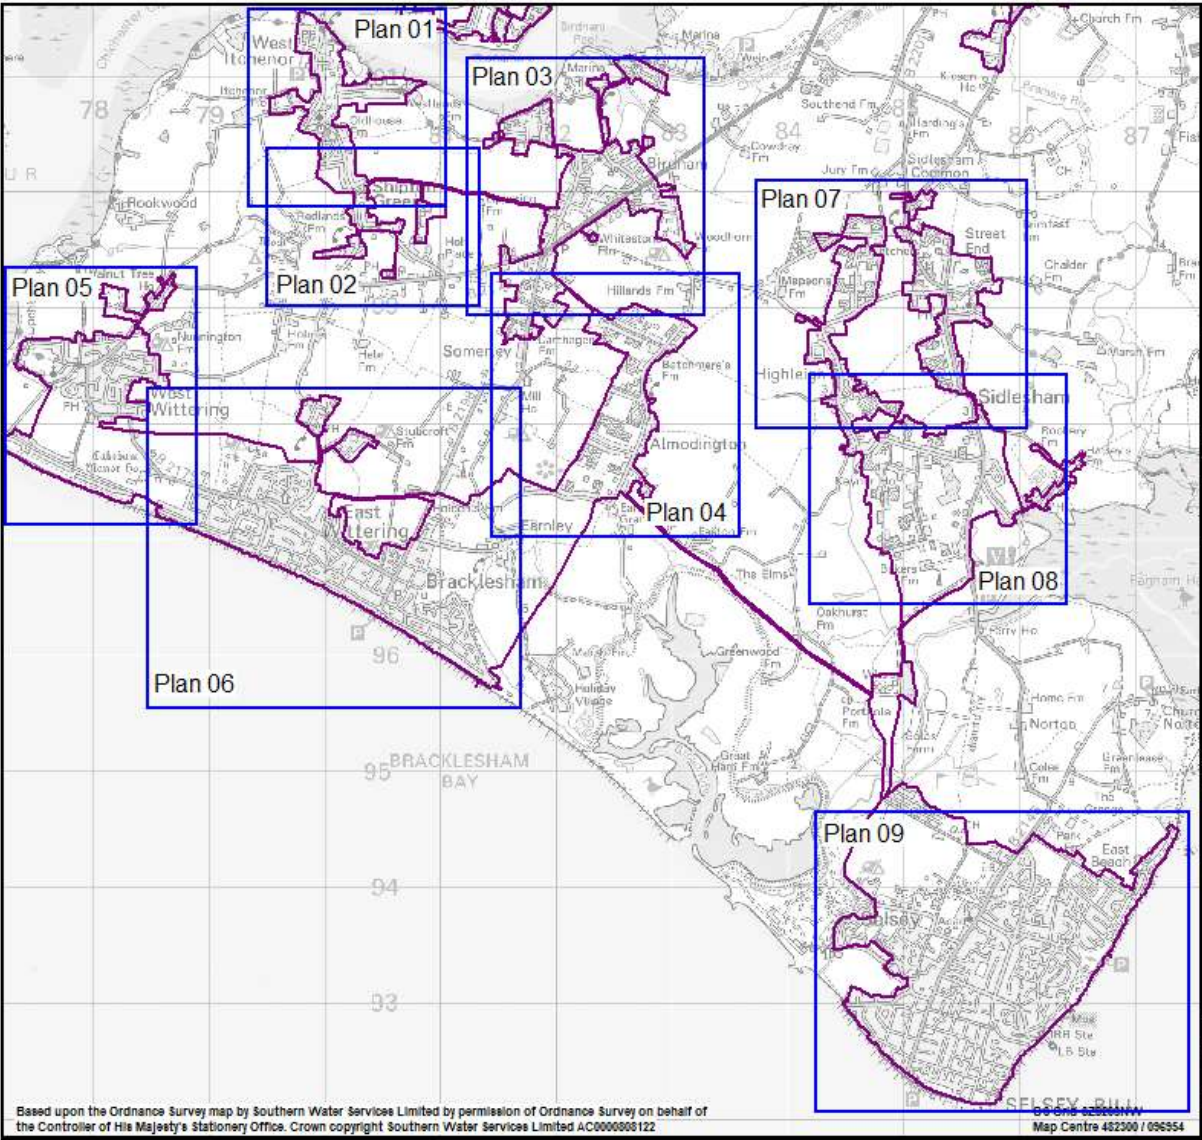

from  
**Southern  
Water** 

## Summary of work completed

Action	Km of sewer
Length Surveyed by CCTV	54.31
Length Surveyed by Electroscan	8.53
Length with no work required	51.36
Length Sealed	4.71
Length to be sealed	6.77
Manholes sealed	9
Manholes to be sealed	3

Reporting Year	Surveyed (km)	Sewers Sealed (km)	Manholes Sealed
Pre 2014	40.5	0.3	7
2014	0.2	0.2	0
2015	0.2	0.1	0
2016	4.8	0.1	0
2017	3.2	1	0
2018	4.5	0.2	2
2019	0.3	0.6	0
2020	0	0.1	0
2021	0	0m	0
2022	9.1	0.1	0
2023	0	0m	0
2024	0	2	0
Post 2024	0	6.7	3
2025	0.53	3.38	0

## Detailed plan 1

Note – sewers shown as surveyed by CCTV or electro scan with no corresponding sealing work have been determined to not require rehabilitation. The use of storm harvester data will be used at some point in the future to target inspections and find infiltration

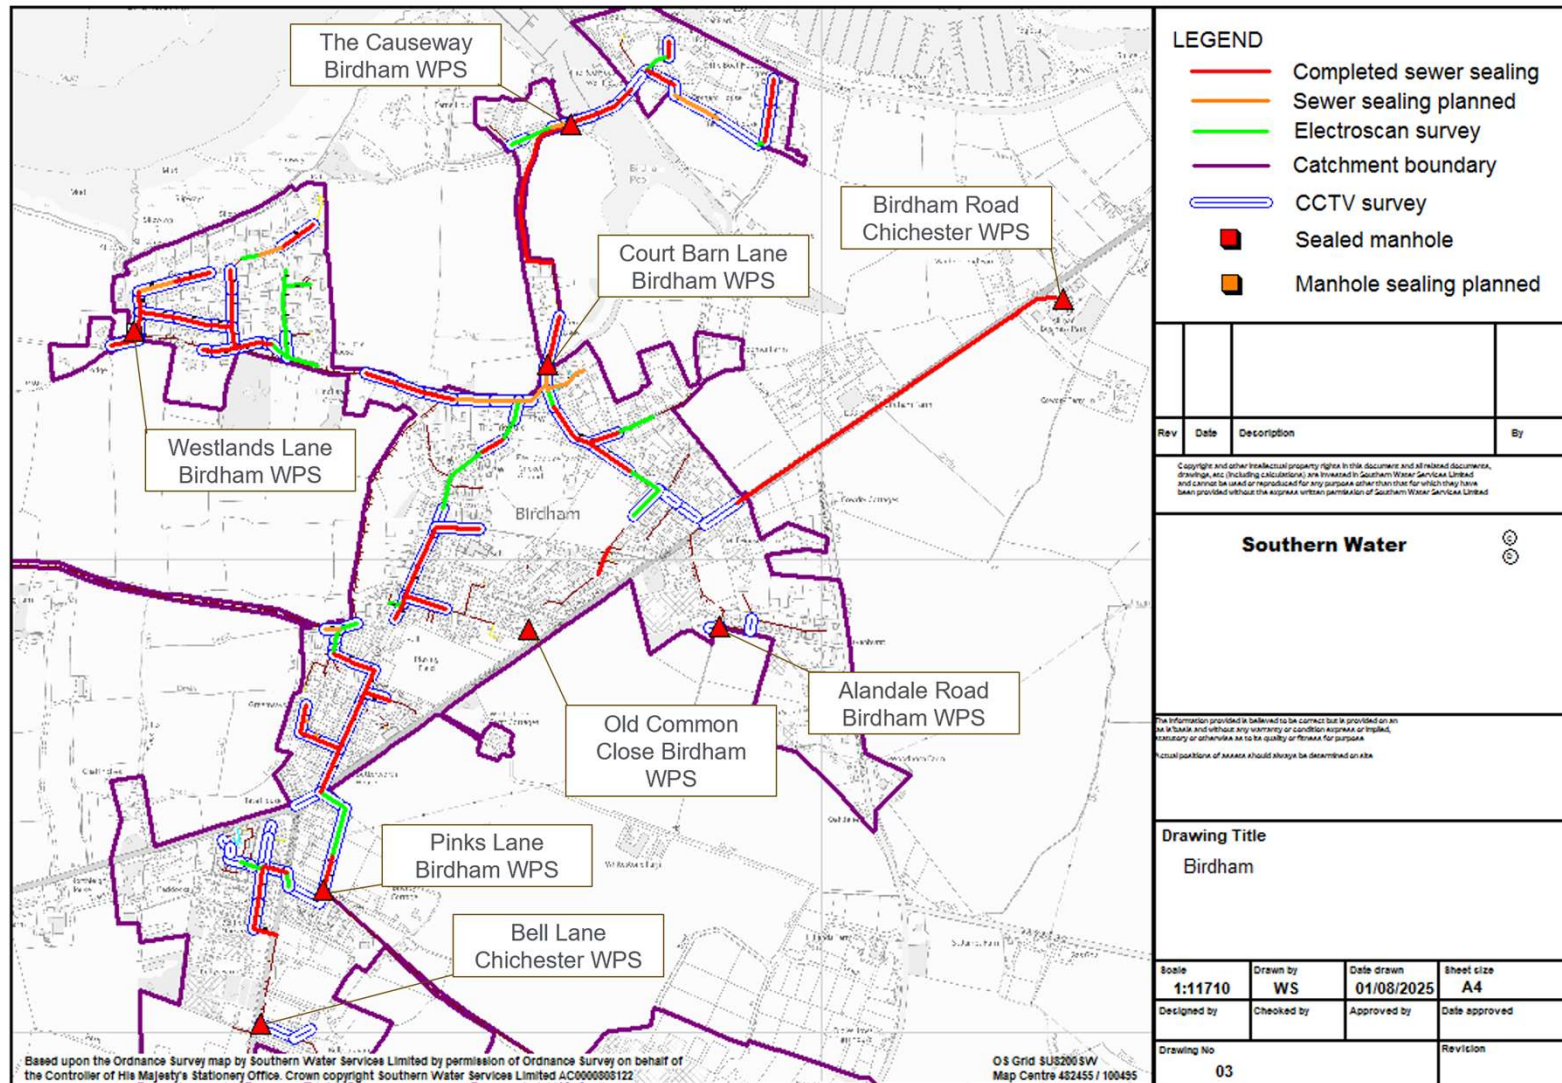

## Detailed plan 2

Note – sewers shown as surveyed by cctv or electro scan with no corresponding sealing work have been determined to not require rehabilitation.

The use of storm harvester data will be used at some point in the future to target inspections and find infiltration

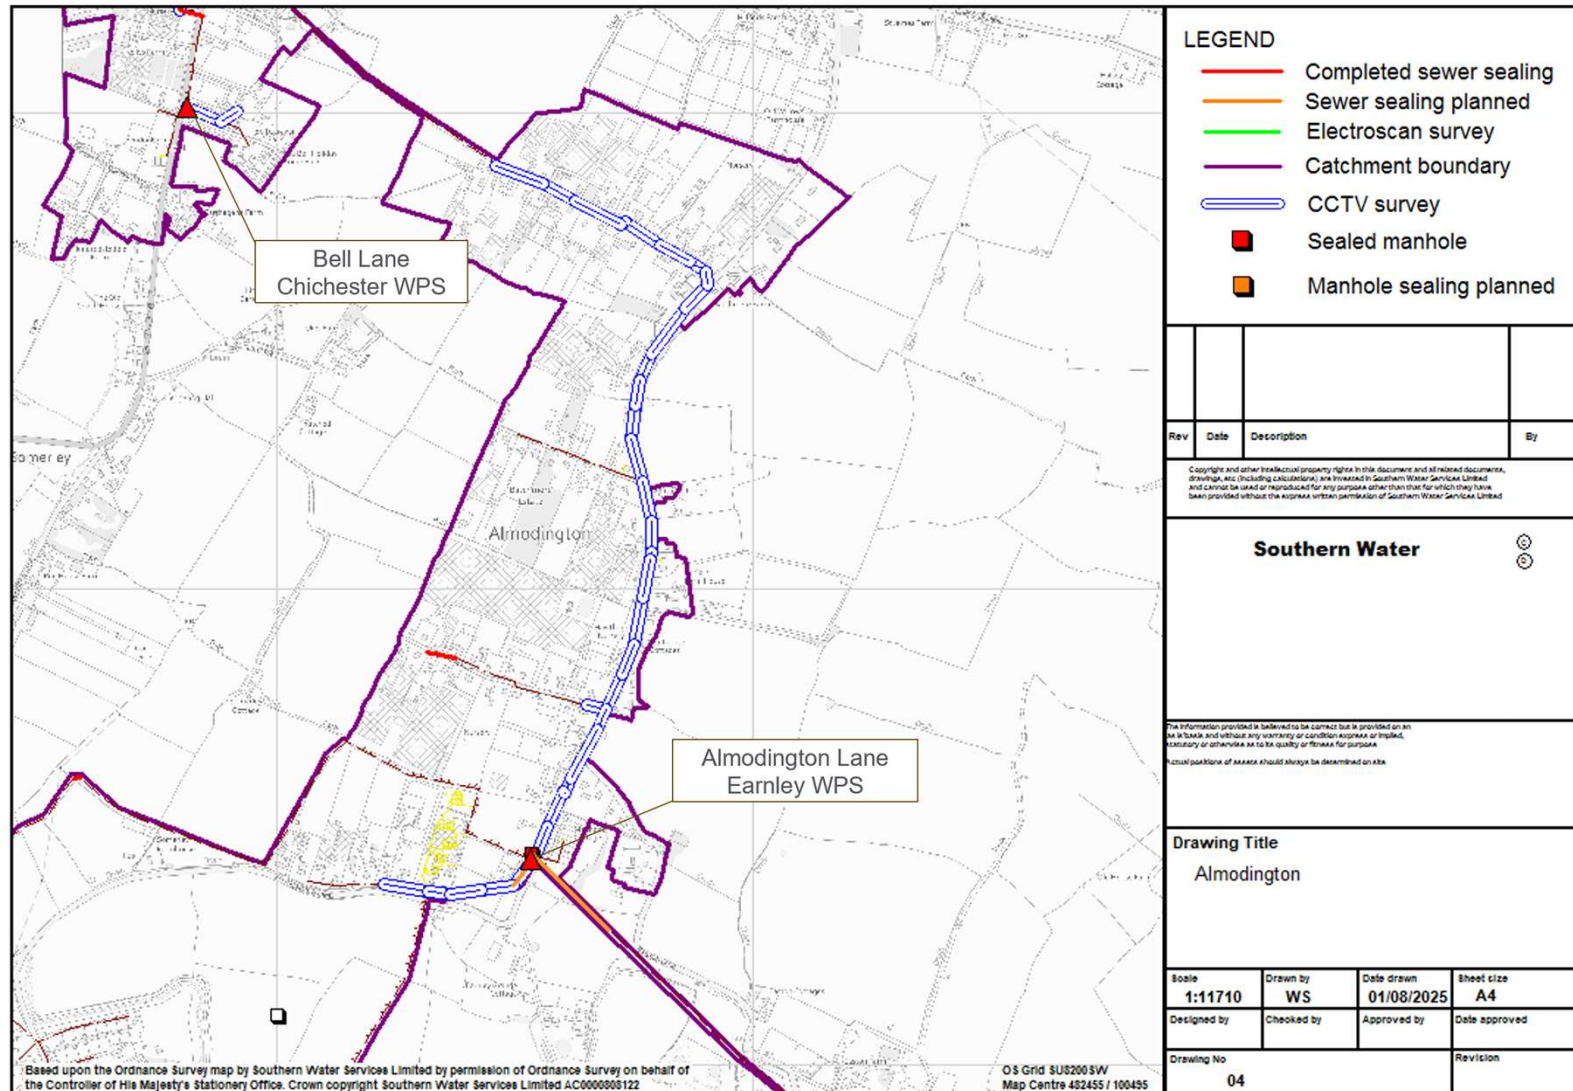

## Detailed plan 3

Note – sewers shown as surveyed by cctv or electro scan with no corresponding sealing work have been determined to not require rehabilitation.

The use of storm harvester data will be used at some point in the future to target inspections and find infiltration

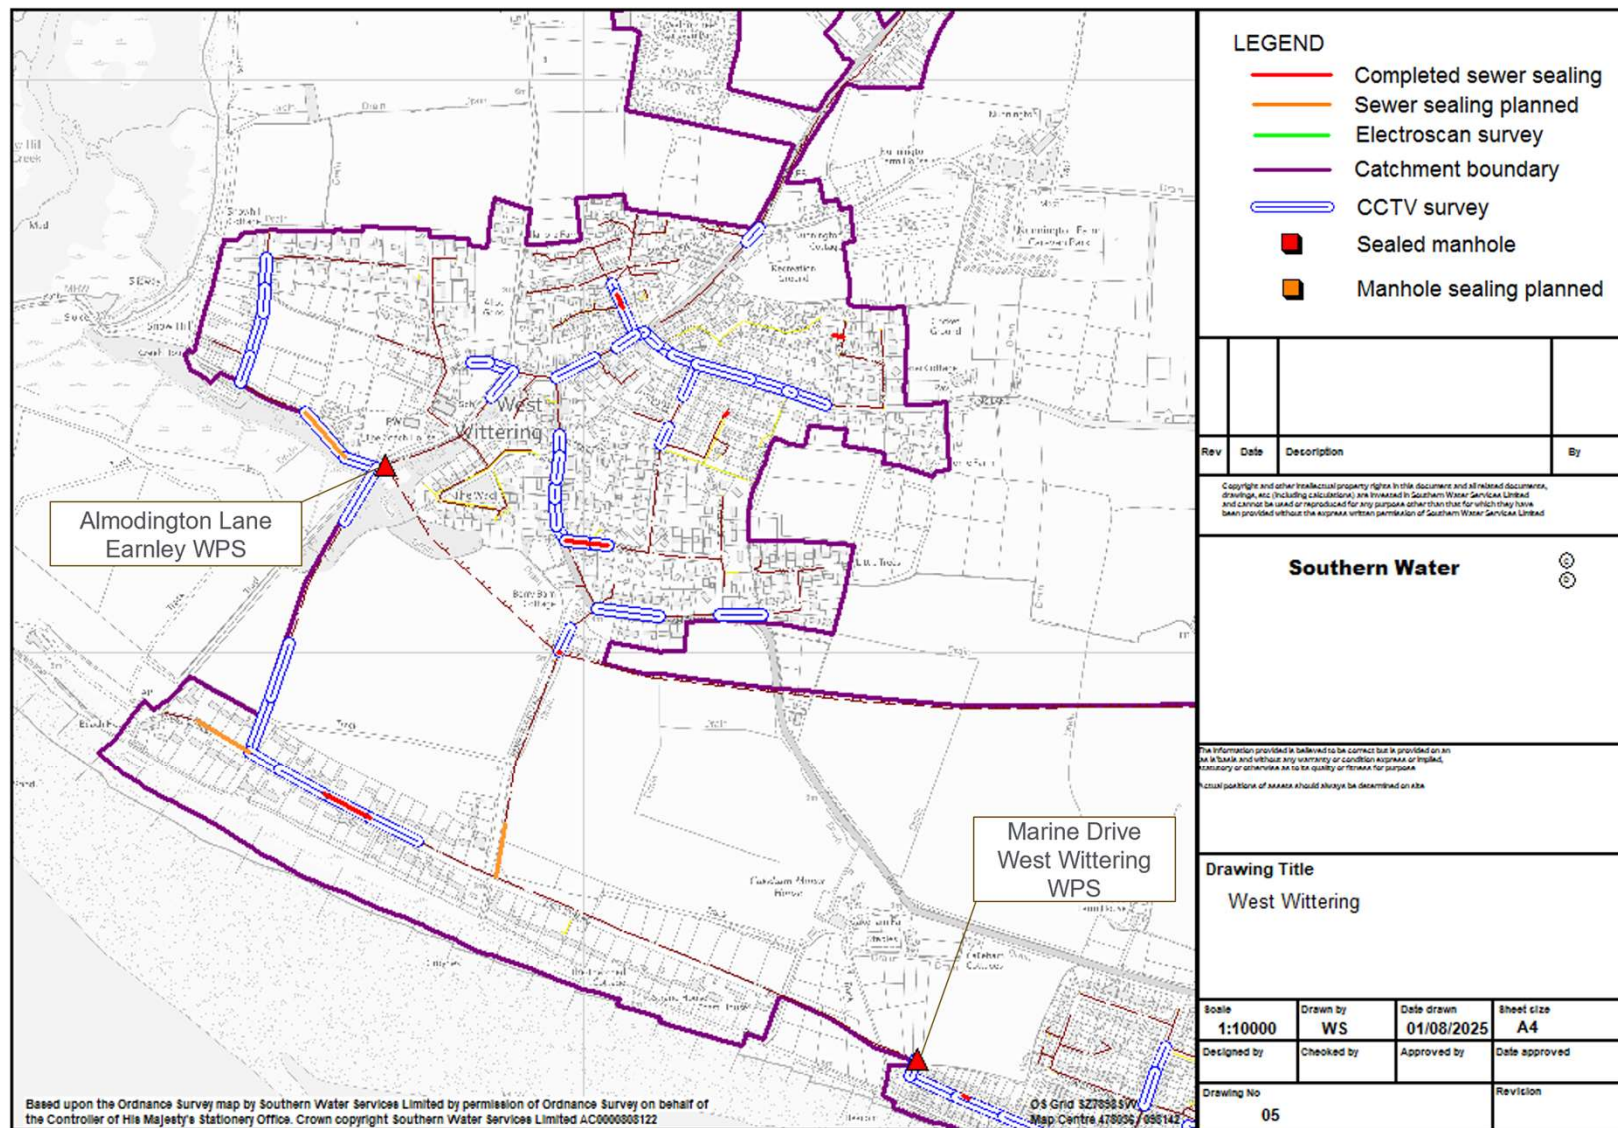

## Detailed plan 4

Note – sewers shown as surveyed by cctv or electro scan with no corresponding sealing work have been determined to not require rehabilitation.

The use of storm harvester data will be used at some point in the future to target inspections and find infiltration

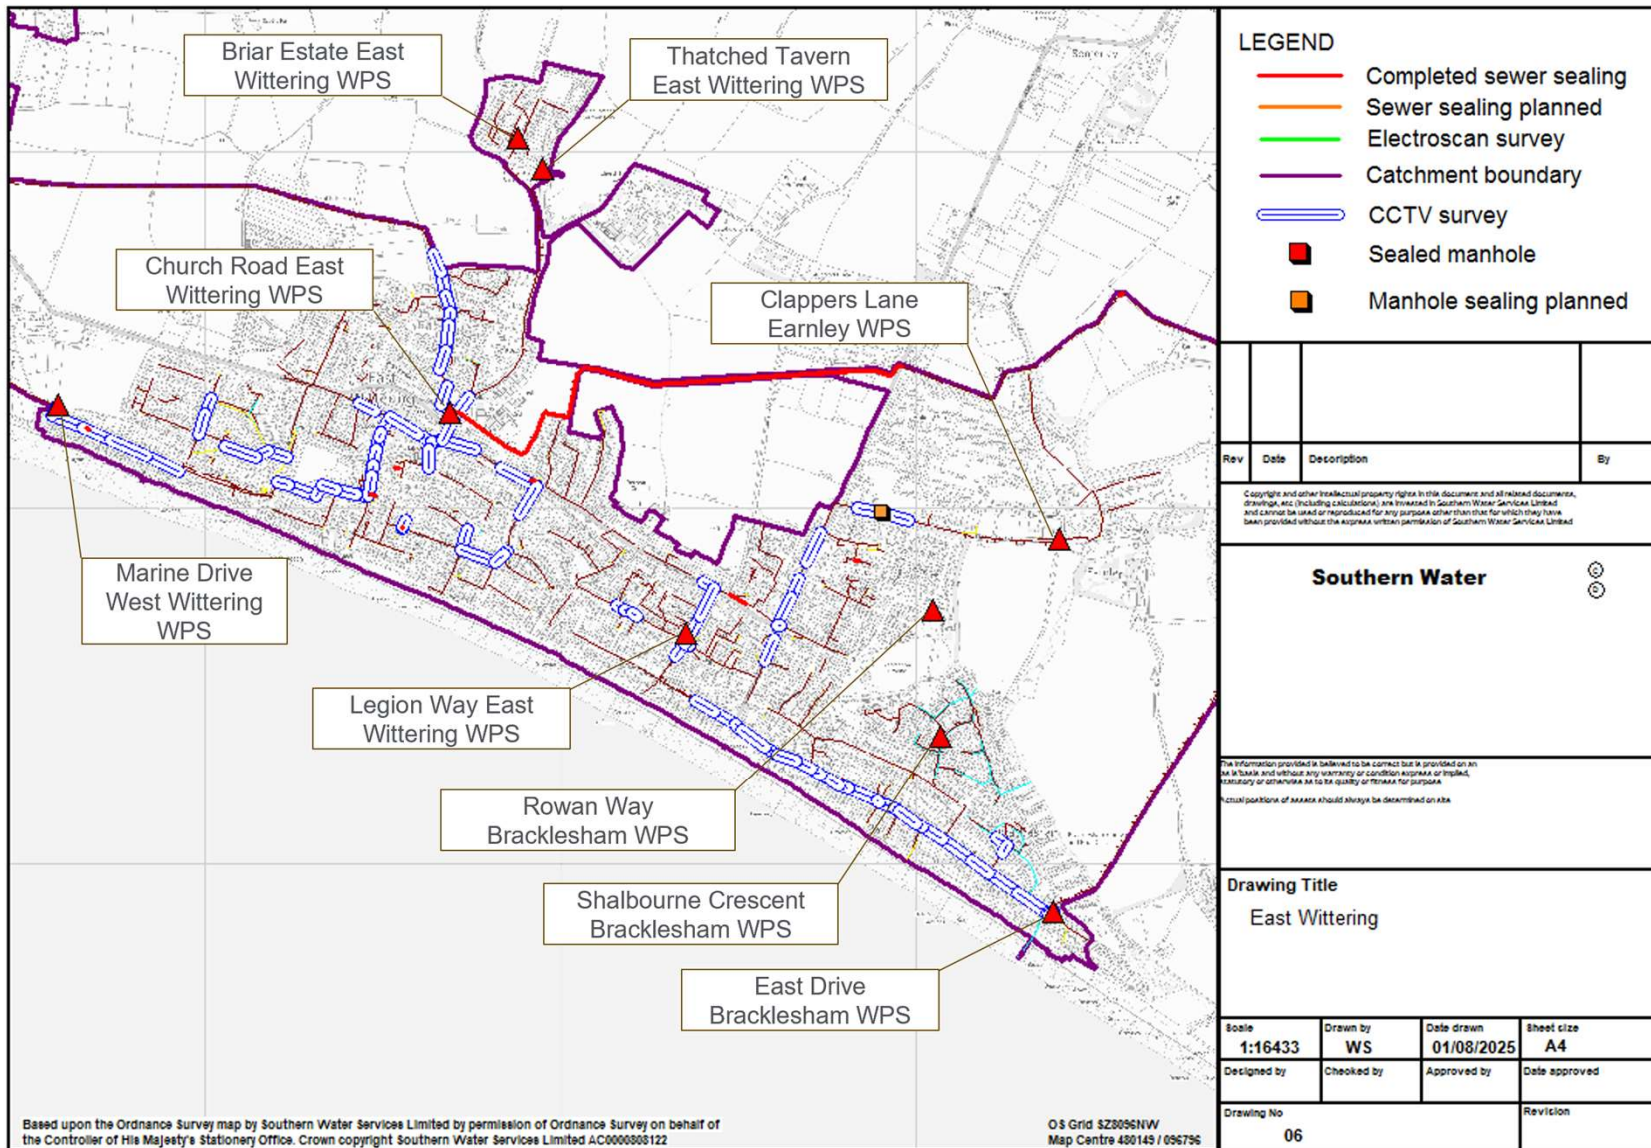

## Detailed plan 5

Note – sewers shown as surveyed by cctv or electro scan with no corresponding sealing work have been determined to not require rehabilitation.

The use of storm harvester data will be used at some point in the future to target inspections and find infiltration

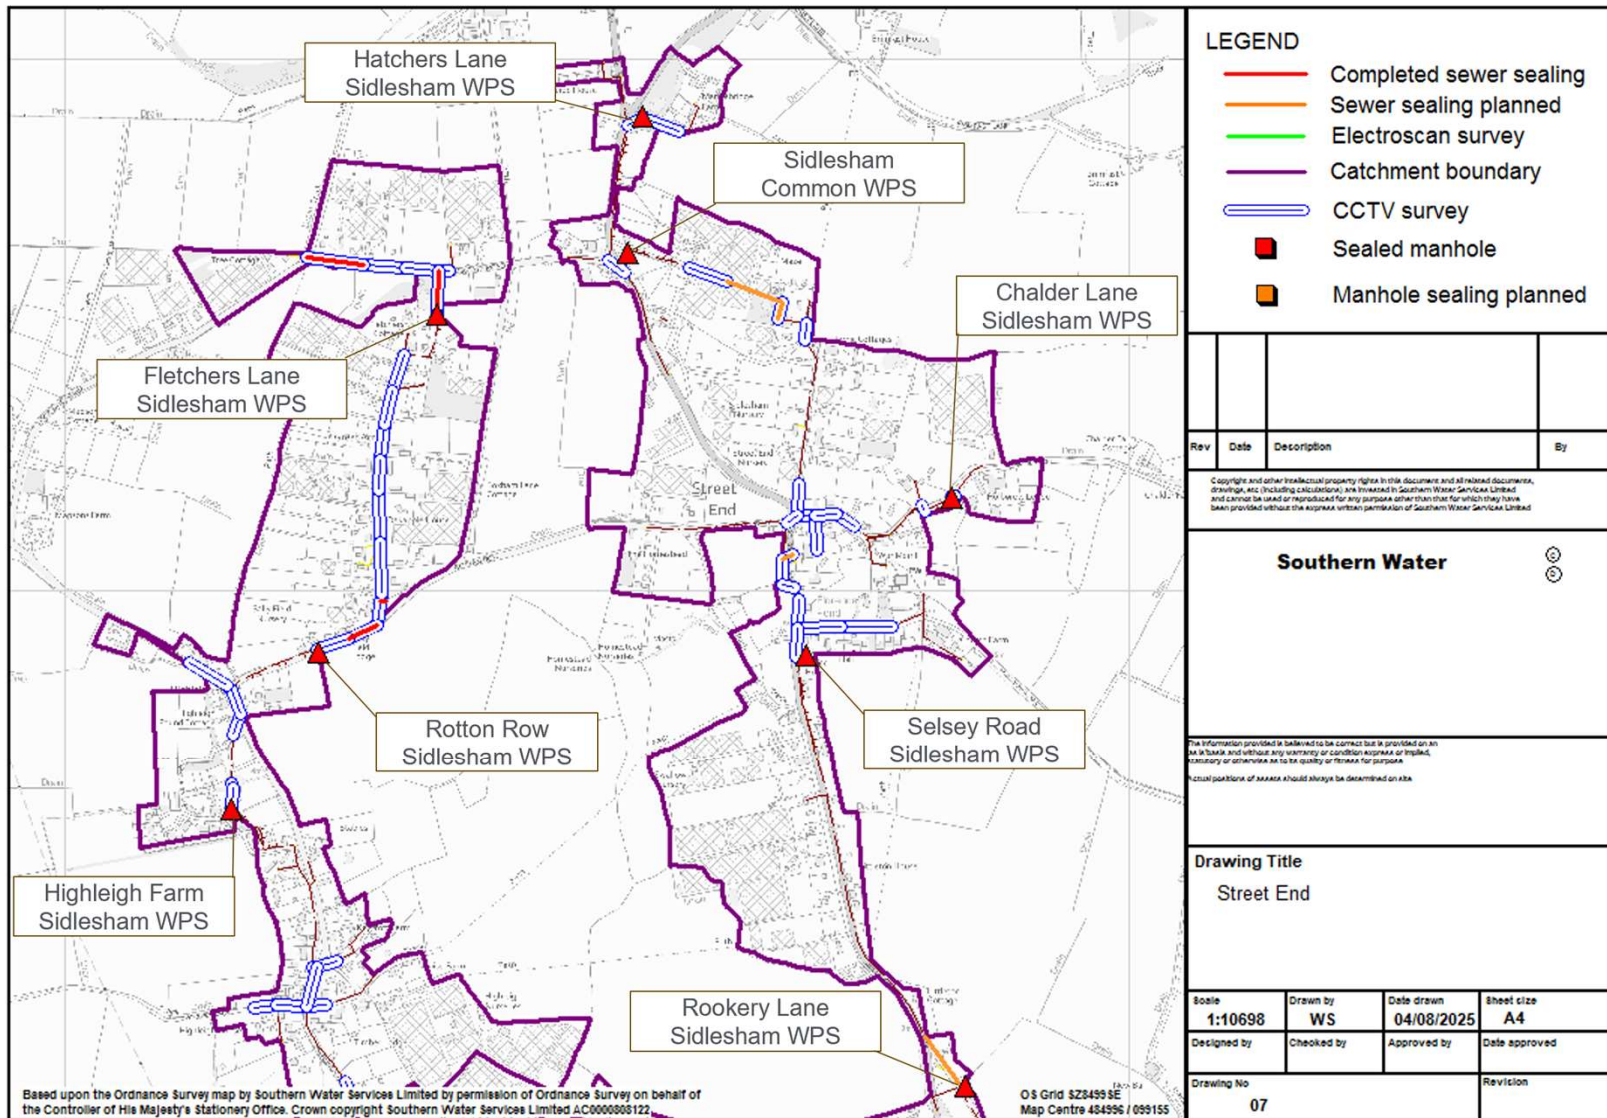

## Detailed plan 6

Note – sewers shown as surveyed by cctv or electro scan with no corresponding sealing work have been determined to not require rehabilitation.  
The use of storm harvester data will be used at some point in the future to target inspections and find infiltration

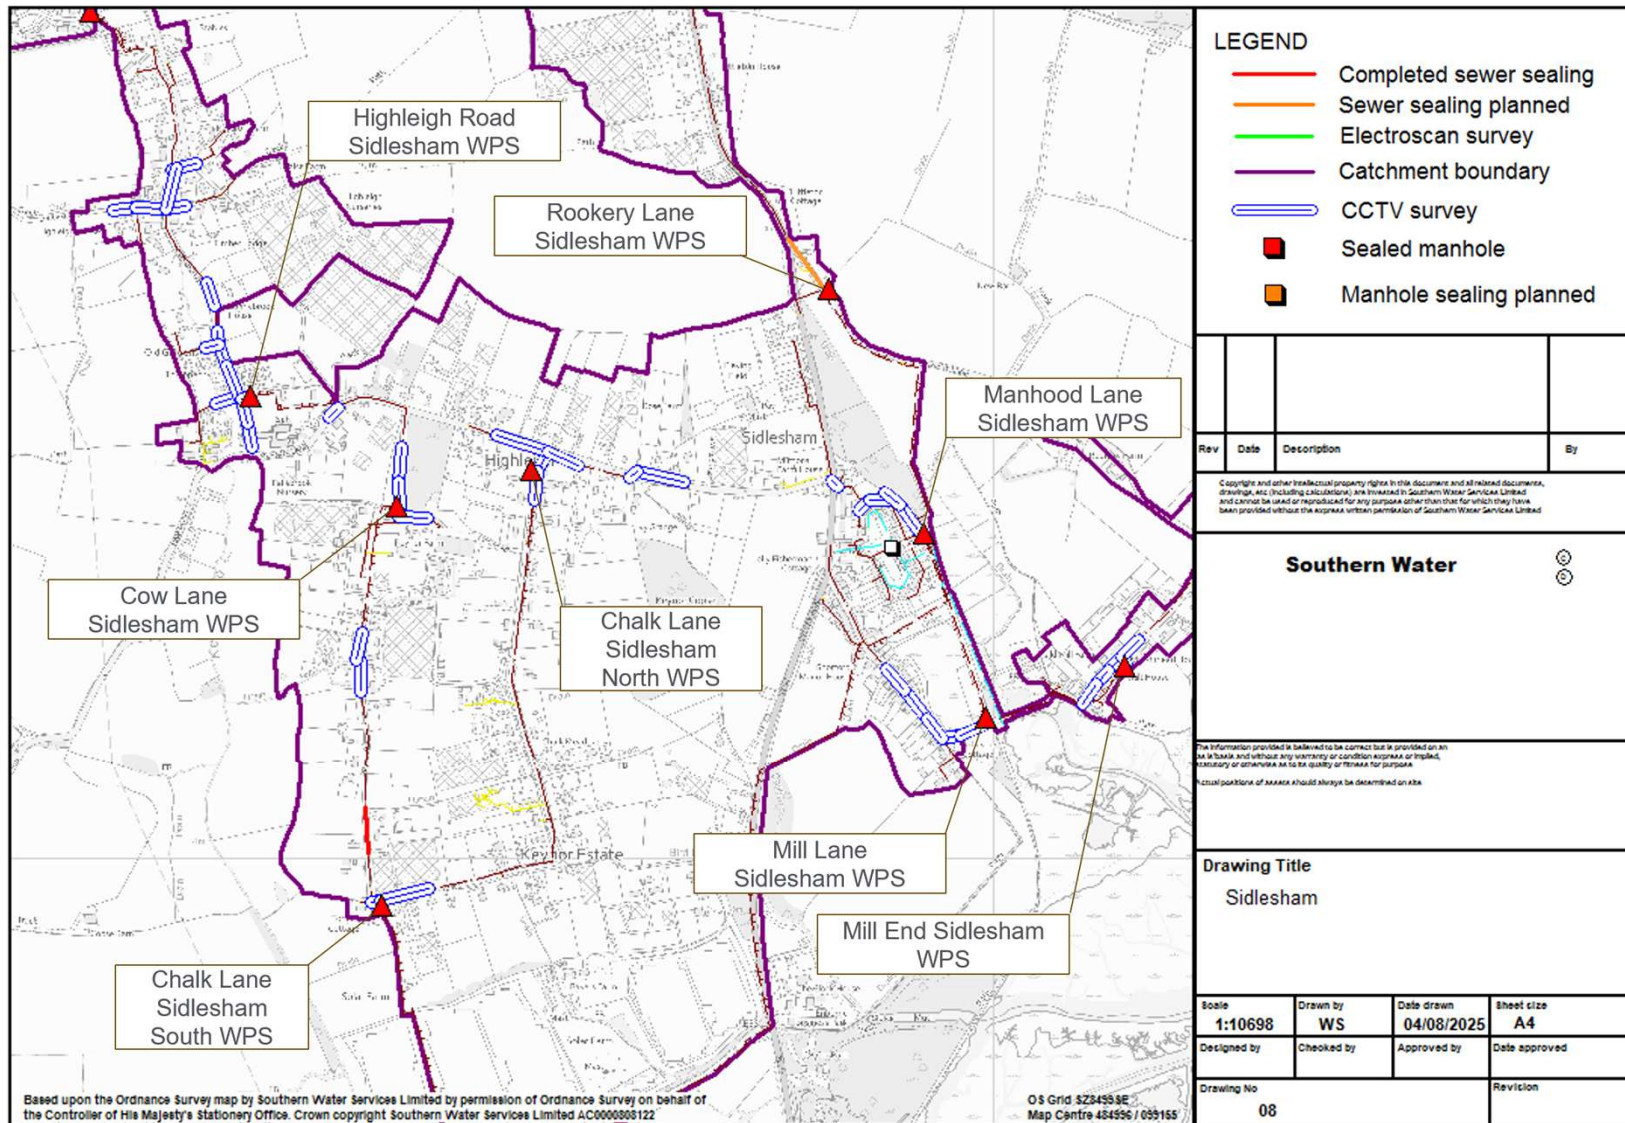

## Detailed plan 7

Note – sewers shown as surveyed by cctv or electro scan with no corresponding sealing work have been determined to not require rehabilitation.

The use of storm harvester data will be used at some point in the future to target inspections and find infiltration

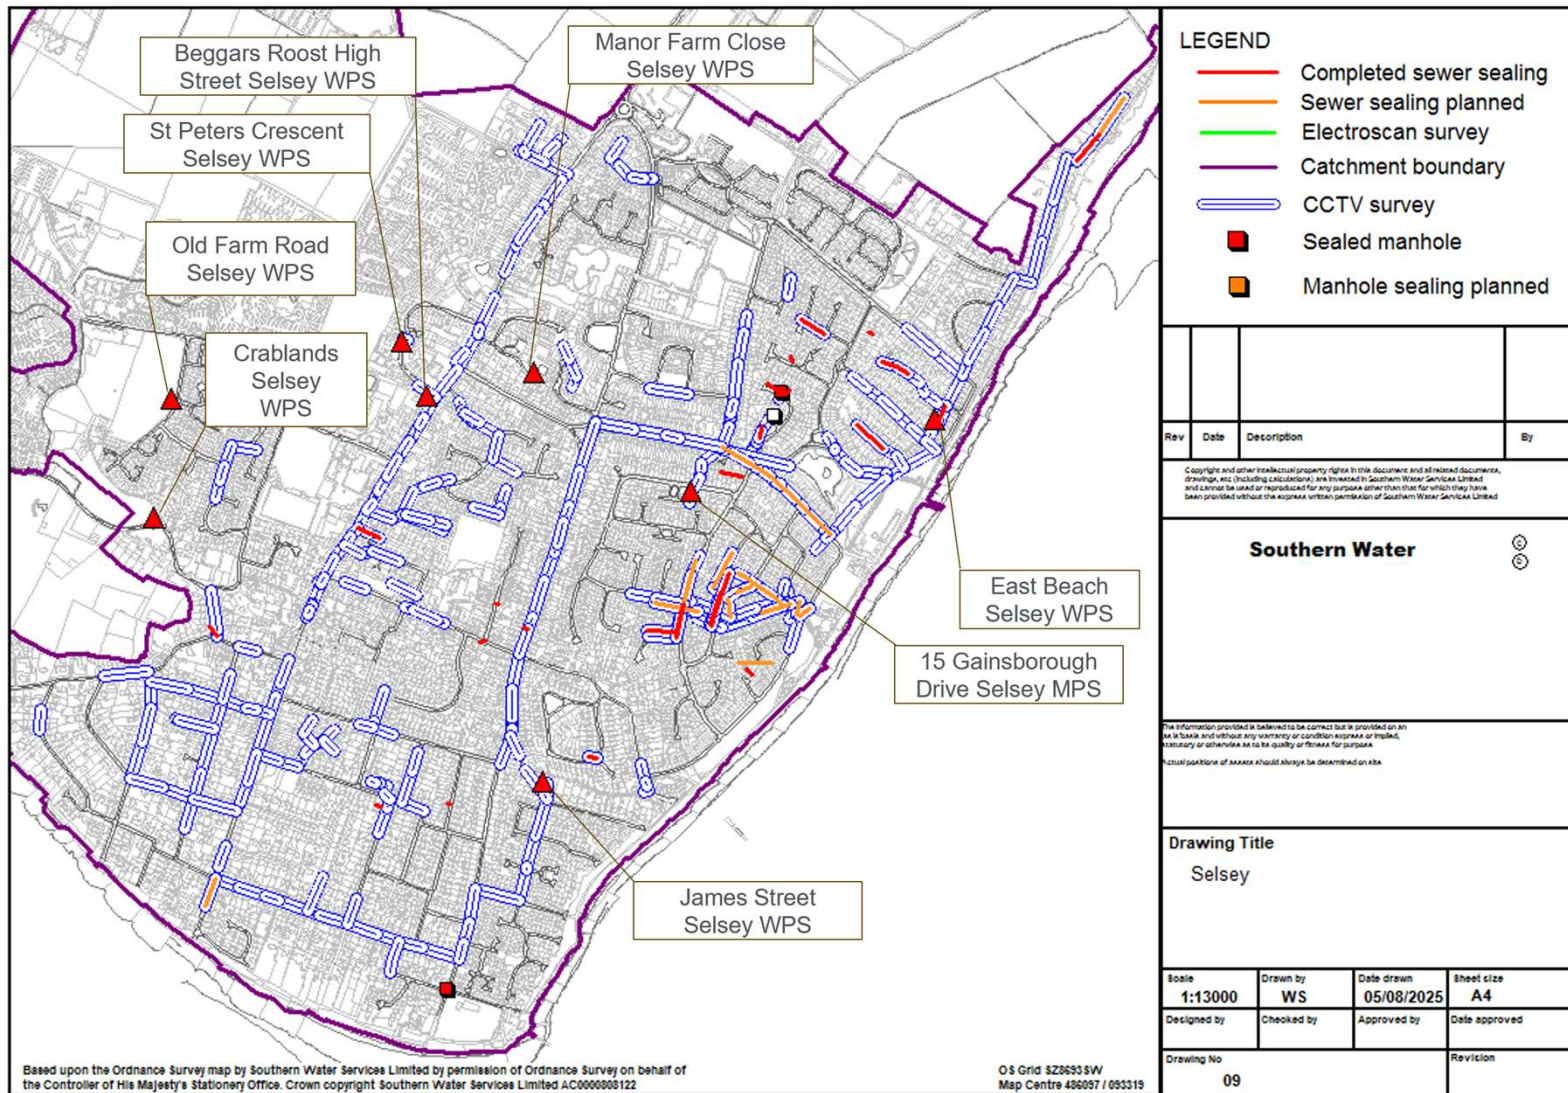

## Detailed plan 8

Note – sewers shown as surveyed by cctv or electro scan with no corresponding sealing work have been determined to not require rehabilitation.

The use of storm harvester data will be used at some point in the future to target inspections and find infiltration

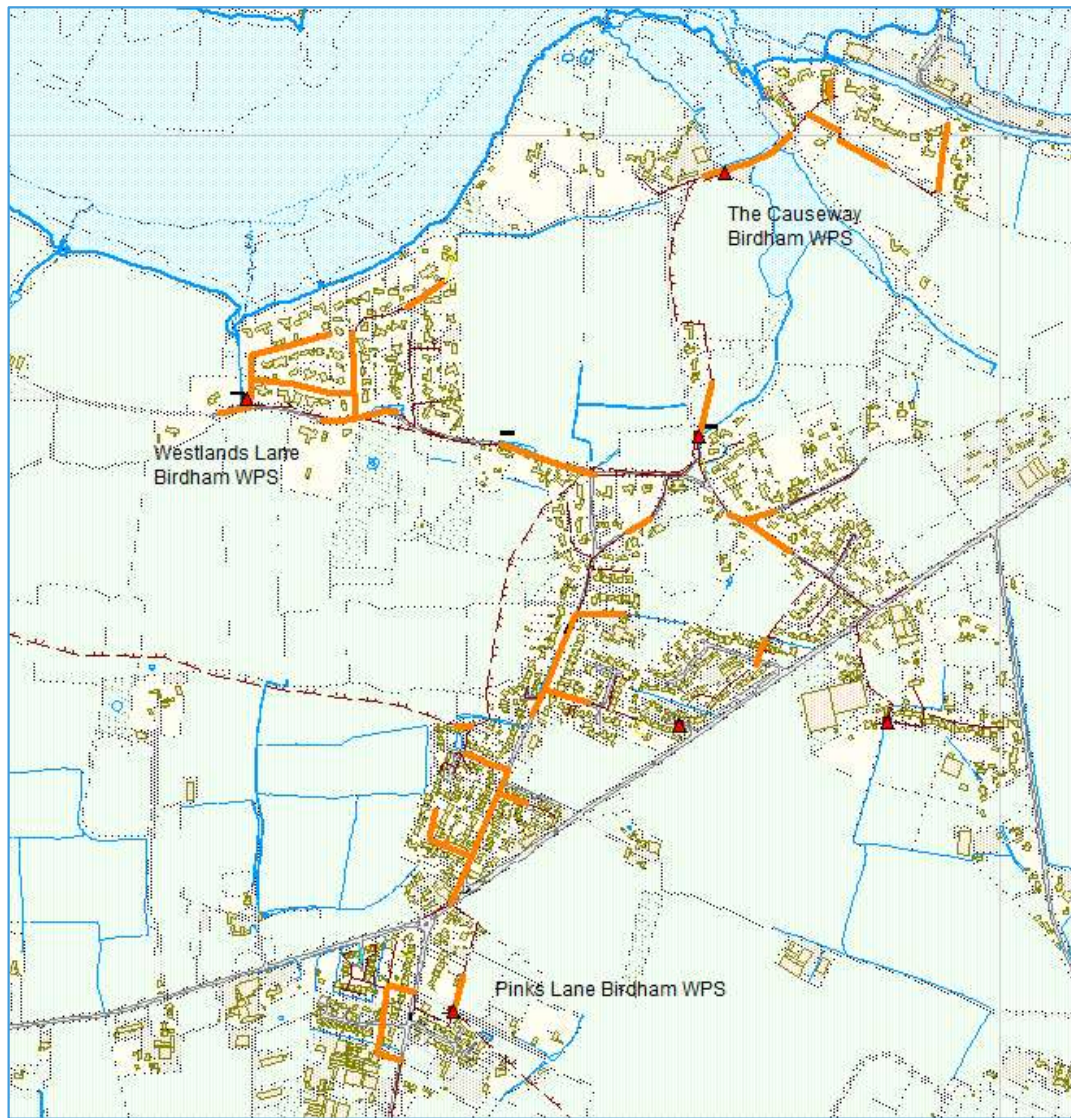

## Detailed plan 9

Note – sewers shown as surveyed by cctv or electro scan with no corresponding sealing work have been determined to not require rehabilitation.

The use of storm harvester data will be used at some point in the future to target inspections and find infiltration

## Birdham Sewer Sealing

Sewers sealed

## Itchenor Sewer Sealing
